

DynaFile Integrates with DocuSign to Help Enterprises Manage Documents 100% Digitally

DocuSign Digital Transaction Management Accelerates Document-Based Processes for Dramatic ROI

Denver, Colorado ([PRWEB](#)) August 20, 2014 -- DynaFile announced the integration of its document management solution with the DocuSign, Inc. (DocuSign®) Digital Transaction Management (DTM) platform to help customers administer end-to-end paper-based processes completely digitally. DocuSign helps organizations achieve their digital transformations for dramatic ROI, increased security and compliance, and better customer experiences by eliminating the hassles, costs and lack of security in printing, faxing, scanning and overnighting documents to complete transactions.

“We are proud to integrate with the global standard for Digital Transaction Management as DocuSign’s secure, cloud-based platform is trusted by enterprises around the world,” says Brock Kane, director of new business development at DynaFile. “Our integration with DocuSign removes traditional pen and paper roadblocks to empower our customers to get documents delivered, signed and filed quickly, easily and securely.”

DynaFile’s document management software integrated with DocuSign DTM empowers customers to:

- Realize revenue faster – DocuSigning takes minutes instead of weeks to complete document workflows;
- Improve employee productivity – DocuSign lets employees focus on high value work instead of chasing paperwork;
- Automate back-end document processing –DocuSign automatically pulls and updates information in existing business systems to eliminate manual rekeying of data and associated errors;
- Increase satisfaction – DocuSign offers the convenience of signing anytime, anywhere, on any device.

DynaFile helps companies better manage their documents by replacing traditional paper-based systems with a versatile cloud-storage solution. With DocuSign, DynaFile customers can send documents directly from their DynaFile account to obtain signatures via DocuSign. The seamless integration automatically files the completed documents back into DynaFile for an easy, fast and secure paperless process.

“We believe every successful company will be fully digital by the end of the decade,” says Neil Hudspith, chief revenue officer, DocuSign. “Companies like DynaFile realize this and are helping to bring the power of DocuSign’s DTM platform to more organizations around the world to achieve the benefits of the fully digital enterprise.”

DocuSign automates manual, paper-based processes with the only open, independent, standards-based DTM platform for managing all aspects of documented business transactions. DocuSign helps companies Keep Business Digital™ with industry-leading identity management, authentication, eSignature, forms/data collection, collaboration, workflow automation, payment collection, and cloud storage. DocuSign helps organizations securely collect information and payments, automate workflows, and transact anything, anytime, anywhere, on any device securely.
