### Contracts and transactions

CSG Systems and MIND C.T.I. announced their partnership to offer a pre-integrated solution to support IP services for prepaid and postpaid services. This solution brings together the CSG Kenan Prepaid and MIND-iPhonEX solutions as a pre-integrated offering for IP access, content and voice-over-IP services. . . . Intelliden Corp., a networking company, announced that BT Global Solutions is using the Intelliden R-Series application to manage its BT Transform Service, which is now fully operational and ready for rollout. . . . Catholic Healthcare West, a not-for-profit health care system, joined the Global Healthcare Exchange. . . . The Chicago-based technology consulting firm eVentive selected Dralasoftware's software Workflow Business Process Management for one of its pharmaceutical clients. . . . ISYS/Odyssey Development Inc., a supplier of search software for business and government, partnered with systems integrator WG Systems to bring ISYS' sixth-generation enterprise search technology to the Brazilian marketplace. . . . DigitalGlobe won a contract in excess of \$500 million issued by the National Imagery and Mapping Agency.

### New products

CrossLink Inc. announced the 2004 availability of its TireBoss product, a tire-monitoring system for commercial truck fleets that monitors a vehicle's tire temperature and pressure and is accessible in real-time via the Web. . . . Denver's Tivoli Center is the first restoration project in the world to use wireless color microwave video/audio, weatherproof scaffold observation camera systems, StageCams by Innovative Scaffold Technologies. StageCams allow monitoring and inspection of wall surfaces without the need to physically ride a scaffold. Instead, inspections are viewed through a high-resolution wireless handheld monitor from the ground. . . . Blue Ribbon Technologies Inc., the developer of DynaFile, a browser-based document management software, was selected by The Paper Solution Group, a document scanning and software company, to build the upgrade to its current version of The Paper Solution 5.0. This upgrade will include the capability to search for and view scanned documents, as well as redact or "black out" these documents in order to comply with the new HIPPA compliance laws. . . . Latis Networks Inc., a network security software provider, released StillSecure VAM v3.0. . . . ICX Global introduced two new remote controls, the ICX 5000Si, a new design incorporating ICX's full-silicone-keypad top case design, and The ICX New Kid's Remote, which allows children to use features and functions

of a TV and receiver.

### Noteworthy

Serenic Software Inc., a developer of accounting software for not-for-profit organizations and government agencies, was named to the Microsoft Business Solutions Inner Circle. . . . Cadpo announced GoEngineer as the first SolidWorks Reseller in the U.S. to add i.get.it to its suite of products and services. . . . Interlink Group, specialists in technology architecture, deployment and managed services, received Microsoft's Q4 West Region Medium Business Partner Award. . . . OmniBus Systems Inc., a provider of on-air automation and media asset management solutions to the broadcast industry, opened a new office in Denver. . . . Gowden Technologies Inc., a network service company, is the first Cisco Certified Partner in Southern Colorado, and the second in the state to achieve IP Telephony specialization.
